

SLOVAKIA

**WE GET MORE DONE
TOGETHER**

N+F SLOVAKIA, s.r.o. operates in the Central European region as a partner company of an established German manufacturer and supplier N + F GmbH with a tradition since 1978.

It has thus been integrated into a transnational network of contractual partners companies in Europe with a stable financial background with a cumulative annual turnover (2018) of more than 250 million. EUR, what forms the basis of the best available on the market.

N+F SLOVAKIA and N + F as partners emphasize the quality of products and offered services. Precisely selected suppliers who have passed strict criteria have all necessary certificates guaranteeing the quality of the products.

We provide comprehensive supplies of flanges, pipes and pipe accessories according to all available standards for the areas of industrial investment projects, maintenance of pipelines and for the solution of emergency situations in the following sectors:

- Petrochemistry
- Gas industry
- Energy industry
- Nuclear industry
- Chemical industry
- Engineering
- Pharmaceuticals
- Food production industry

We supply the material in all qualities from simple carbon steels, high alloy, stainless, including cast iron and non-ferrous metals, as well.

We are ready to ensure production according to your drawing documentation atypical parts from the required materials.

Thanks to our own production capacities and the necessary machinery park, we also respond flexibly to your non-standard requirements and assignments.

Through saving your time
We save your financial resources.

Complex offer of our assortment

Pipes

- Seamless
- Welded
- Finned
- U-bend
- Insulated: PE, PP, FCM-s (cement insulation, and more)

Pipe accessories

Flanges

- Welding-neck
- Blind
- Slip-on
- Threaded
- Lap-joint
- Socket welding
- Spectacle blind
- According to drawing documentation

Weld-on

- Elbows – 45°, 90°, 180°
- Bends – 3DN, 4DN, 5DN (15°, 30°, 45°, 90°)
- T pieces equal/reduced
- Crosses
- Concentric reducers
- Excentric reducers
- Caps

Threaded

- Elbows – 45°, 90°
- Tee equal
- Tee reduced
- Crosses
- Couplings
- Couplings reduced
- Hexagonal plugs
- Pipe sockets
- Screws
- Nipples
- Reduced nipples
- Swage nipples

Socketwelds

- Elbows – 45°, 90°
- Inserts
- Reducing inserts
- T pieces equal
- T pieces reduced
- Crosses
- Caps
- Couplings
- Couplings reduced
- Unions
- Outlets
- Sock-outlets

- Thread outlets
- Weld-outlets
- Nip-outlets
- Lateral outlets
- Elbow outlets
- Flanged nipple outlets

Armatures

We deliver valves in accordance to the vendor list of end user.

Fasteners

- Sleeves
- Savings
- Stirrups
- Curtains
- Hangers
- Supports
- Bolts
- Threaded rods
- Nuts
- Screws
- Washers and others

Forgings

Forged pieces for production of

- Flanges
- Shafts
- Tees
- Rings

Forged

- Bars
- Cubes
- Rings
- And other shapes according to customer requirements

Steel profiles

Bars

- Round
- Flat
- Square
- Hexagonal
- L non-equilateral
- L equilateral
- Cross-sections: T, I, IPE, U, UE, UPE, HEA, HEB
- Open thin-walled profiles, cross-sections: L, C, U
- Concrete steel smooth, finned (bars, coils)
- Welded meshes for concrete
- Steel wire coil

Sheet metals

- Smooth (matte, polished)
- Patterned
- Perforated
- Shaped (wavy, trapezoidal)
- Wide steel
- Belt steel

Services

Destructive testing

- Tensile tests
- Brittleness tests
- Bending flexural tests
- Macro-analyses
- Hardness tests
- Various tests as required

Non-destructive testing

- VT – visual tests of welds
- PT – penetration tests
- MT – magnetic tests of welds
- RT – X-ray tests of welds
- UT – ultrasound tests
- LT – leak tests

Surface treatment

- Galvanisation
- Pickling
- Passivation
- Sanding
- Grinding
- Polishing

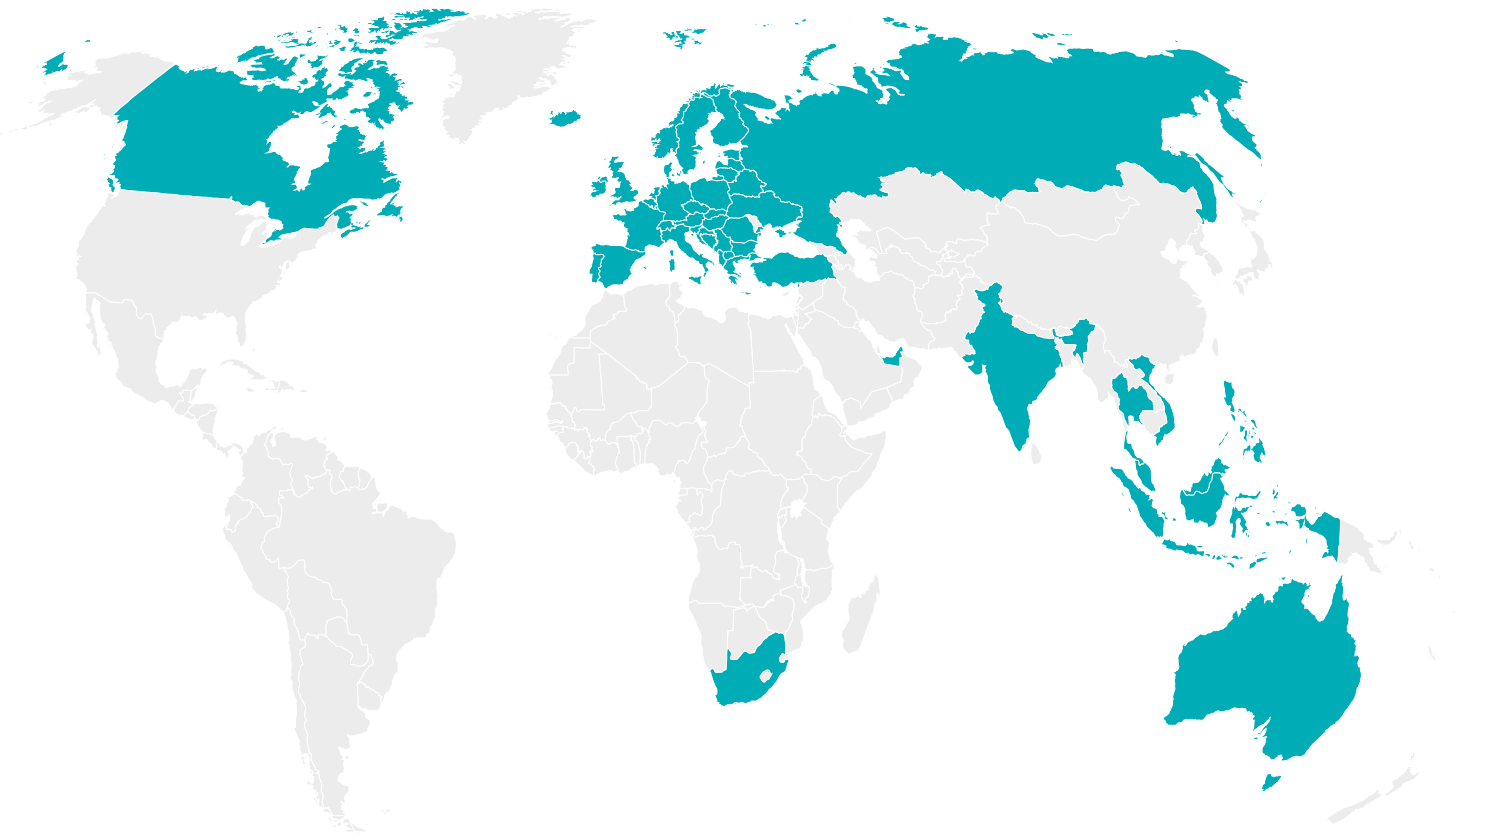

Production and machining

- Machining according to order
- Production according to drawing documentation
- Material cutting
- Bending

Certification

- EN10204 - 3.2 certification
- EN10204 - 3.1 certification
- Declarations of conformity and more

We operate on a global scale

- Investment construction, overhaul and maintenance of the Duslo chemical plant – Slovakia
- Regular, accredited and certified supplier for Bayer, BASF, Lanxess, Covestro, Ineos, Evonik – Europe, Africa, Russia etc.
- And others

Our mission „We get more done together“ we perceive on the level of three basic principles

Speed

- **Express production and delivery** of required products, what the client will appreciate by shortening time of outage, if applicable faster implementation work on the production unit
- **Certified warehouse stocks with a volume of more than 60,000 tons in wide the range of qualities** guarantee realization of your requests quickly and flexibly
- Accredited production capacity of more than 10,000 pcs per day
- Strategically located warehouses throughout the EU

Quality

- Consortium guarantee with worldwide reach and tradition since 1978
- Required certificates in accordance with international standards
- Possibility of EN certification 10204-3.2 with TÜV acceptance
- Material inspection in cooperation with accredited body
- Dual control
- Effective management diverse client needs
- Thanks for many years of experiences we are ready to offer the ideal alternative solutions according to client requirements

Reliability

- Strong and stable financial transnational background consortium
- **Insurance coverage in the amount from 20mil. EUR per delivered products**
- Strong partner for emergencies and crisis events
- Experienced and professional multinational team
- Many years of experience
- Individual approach

In addition, we are ready
to provide you with

By the Group allocated investment package is prepared for your projects with the possibility **to build up** consignment warehouses and connected processes of material transport system to the implementation site, what **brings significant savings of your resources in every situation.**

Transparency, long-term sustainability and credibility are the basis of our system of work, by which we fulfil **individual client's needs** and save your time.

The aim of N+F SLOVAKIA, s.r.o., as a member of a transnational consortium, is to be your strong, stable supplier and loyal partner.

We are ready
to meet your requirements
